

# TNT71HD2

Digital Terrestrial Receiver  
Recorder - Media player

With the TNT71 HD2, discreet, reliable and functional, you can fully enjoy the free DTT channels in High Definition with exceptional audio and video quality.

Equipped with a USB port where you can connect an external unit, it is ideal for recording (1), viewing and replaying your favourite programmes.

With the Multimedia function, you can listen your musics, watch your films and view your pictures.

The TimeShifting function (2), allows you to stop watching a programme, go about your business and watch it again whenever you want, just like with a DVD.

With the remote control and display offset (3), you can control the adapter without seeing it by hiding it behind the TV.

The integrated TV Control System, will also allows you to control your TV.

(1) with the addition of an external unit (USB key or hard disk) not supplied.

(2) with the addition of a DEP2F kit not supplied.

(3) on the main functions with most TV sets.
